Prompt Pick Up and
Delivery Service

THOSE who demand perfection in printing plates—the newest processes—a complete and responsible service—are coming to **Buffalo** in ever increasing numbers. These are their reasons:

Buffalo has the largest and best equipped plant in Western New York. From the finest color cameras to the six proofing presses, its machines are modern and carefully maintained.

Buffalo has a fine staff of artist-craftsmen. Each man is a carefully trained and talented specialist. Some have been brought from abroad. All have but one standard—the highest.

Buffalo has an able and efficient administration. From president to salesmen they are experienced men, backed by years of training in their profession. They know the problems of reproduction and how to solve them. Cooperation is their watchword.

These, too, are the reasons why you should come to **Buffalo** when you need any or all the products or services listed here. They are the reasons which assure you printing plates of greater satisfaction at no greater cost than ordinary plates. Come, write or phone.

This Publication Is The Product of a Member

—thus assuring you the ultimate service that skill and care can produce in the of City Directories or other reference media, and providing protection against fraud advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Associ of North American Directory Publishers in 1898, and strictly adhered to over the y is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director buyer and seller.

5. To decline any advertiseme which has a tendency to mislead which does not conform to business i tegrity.

6. To solicit subscriptions and a vertising solely upon the merits of t publications.

7. To avoid misrepresentation statement or inference regarding circ lation, placing the test of referen publicity upon its accessibility to see ers, rather than on the number copies sold.

8. To co-operate with approved ganizations and individuals engaged creative advertising work.

9. To avoid unfair competition.

10. To determine what is the hi est and largest function of Director in public service, and then to str in every legitimate way to promote t function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
